NOTE FOR

STAT

Attached is a copy of a note from Danny Childs citing what he believes CIA agreed to provide GAO staffers as a follow-up to their briefing here on 26 June 1984. On instruction from  I called Frank Degnan, GAO liaison officer, today and offered the conditions set forth on the Childs note. Degnan recorded the information and said he would forward it to the appropriate staffers. He did not indicate how GAO might react to the offer.

STAT

With regard to CIA-GAO guidelines, I am also attaching two memos that detail the agreement worked out between the agencies in December 1979. As far as I know, this is the most recent correspondence on our relationship. You should also know that Frank Conahan, Director of GAO's National Security and International Affairs Division, came out to CIA on 22 February 1984, along with Degnan's predecessor, Joe Kelly, to meet Clair George and reaffirm GAO's interest in obtaining CIA's support.
